Subject: Purdue: Debtors' Amended Supplemental Privilege Logs

kiteworks

chautney.oluwole@davispolk.com sent you a secure message

All,

Please find attached the following:

- Debtors' amended logs and blacklines reflecting changes made to all logs produced to date;
 - Note that due to the size of both the log amending the 9/15 log and the 9/15 log, we were unable to run a blackline.
- amended privilege legends and blacklines including information relating to individuals reflected in the log, including their names, email addresses, and whether they are an attorney;
- an appendix reflecting the privilege IDs for previously logged documents that have been downgraded to not privileged or partially privileged after additional review; and
- an appendix compiling the role and title information for individuals identified as "unknown" in the UCC's September 21 letter and who still appear on the amended logs.

We reserve the right to change, correct, amend, or supplement these privilege logs. We are designating the privilege logs, legends and appendices as Highly Confidential under the Second Amended Protective Order in these cases.

Thanks,

Chautney

(resending here because I received bounceback from Akin folks)
